We also have a number of other specials going on right now, to help everyone get out of that old Windows XP computer, which by the way, is no longer safe on line! We will include in the price of the new machine, moving all of your data and installing your applications, wiping the old hard drive to make sure your data doesn't get "out there", and then recycling the old computer. If you are more comfortable keeping the old hard drive for yourself, no problem, we will wrap it in an antistatic bag for safe keeping! We will be glad to quote on delivering the new machine, and getting it set up on your network, installing your printers, etc. <http://www.computer-ez.net/>
